Experience

- Medicaps University** Indore, India
Bachelor of Technology - Information Technology; CGPA: 8.01 Aug 2021 - May 2025
- South Indian Cultural Association(SICA) School** Indore, India
CBSE(ClassXII);80.6% Apr 2020 - May 2021
CBSE(ClassX);92.0% Apr 2018 - May 2019

Skills Summary

- Languages:** Java,SQL,Html,CSS,Javascript
- Frameworks:** Spring,Hibernate,Spring Boot
- Development:** RESTful API,Microservices,Data JPA
- Courses:** Data Structures & Algorithms,OOPs,Software Engineering
- Tools:** Git,MySQL,SQLyog,Apache NetBeans,SpringToolSuite,Postman,IntelliJ IDEA,MongoDB

Experience

- Technosoft Informatics Training and Development Center** Indore, India
Intern Backend Developer (Part-time) June 2023 – July 2023
 - Developed a robust salary adjustment module for 10 customers in a service-based firm, automating salary increments/decrements for marketers and accountants based on daily deals closed.
 - Successfully delivered the module, resulting in a 30% improvement in operational efficiency, streamlining salary adjustment processes and enhancing overall business performance.
 - Leveraged Java 2 Platform, Enterprise Edition, Spring, and Hibernate to ensure seamless integration with existing system.

Projects

- User -Centric Microservices Architecture Development :** [\[GitHub\]](#) Jan '25 – Feb '25
 - Developed a microservices architecture with User, Offer Deals, and Geolocation Notification Services, achieving a 25% reduction in downtime and a 40% improvement in response times using Netflix Eureka, Spring Cloud Gateway, and Resilience4j.
 - Secured the system with Spring Security and Okta, ensuring robust user authentication and data protection.
 - Tech Stack: Spring Boot, Netflix Eureka, Spring Cloud Gateway, Resilience4j, Spring Security, Okta,MongoDB.
- Millings & Commodities:** [\[GitHub\]](#) Apr '24 – May '24
 - Created a web application to streamline cereal ordering and inventory management, resulting in a 30% reduction in order processing time and supporting a 15% increase in overall sales.
 - Optimized order management, driving faster fulfillment with an average order turnaround time reduced from 48 hours to 24 hours, leading to a 20% increase in customer retention and enhanced customer loyalty.
 - Tech Stack: HTML, CSS, JSP,Servlet , JDBC, Apache Tomcat, MySQL
- Pawfect Stay :** [\[GitHub\]](#) June '24– July '24
 - Engineered a desktop application for managing temporary dog stays, including booking, fare calculation, and shelter listings.
 - Established detailed animal profiles with health records and care instructions to ensure personalized care.
 - Tech Stack: Java, Swing, Hibernate, MySQL

Certifications

- Alteryx Foundation Certificate July 2024
- Alteryx Designer Core Certificate July 2024

Volunteer Experience

- Team Lead,Management Division , Entrepreneurship Cell, Medicaps University Aug 2022 – March 2023

Personality and Interests

- Adaptable & Proactive: Embraces change and takes initiative in problem-solving.
- Detail-Oriented & Collaborative: Ensures quality work while fostering teamwork.
- Curious Learner: Passionate about technology and continuous learning.
- Community Service: Actively engages in local volunteer activities.
